RAFTING OUTING PROGRAMME "TARA"

(one-day programme)

This programme includes rafting on the most beautiful and attractive 18 kilometres of the Tara, from Brštanovica to Ščepan Polje where the Tara flows together with the Piva and they make a new river, the Drina. This part of the river with over twenty rapids is one of the most exciting. Special boats for wild rivers are used for rafting. A boat is five metres long and two metres wide and it has 8 separated sections which make passengers secure. Helmsmen born by the Tara steers the boats. They know its nature, eddies, rapids and deeper parts of the river, so the ride is completely safe.

Every passenger is given a life-jacket and a helmet, and in case of rain and cold weather neoprene suits and rain coats are worn.

ITINERARY:
